

You can export your Canvas course to:

- Create a copy as a backup (e.g., save to your computer, flash drive, cloud, etc.)
- Share your course with another faculty
- Upload to another institution's account

1. Login to [Canvas](#) and access the course you want to export:

2. On the course navigation menu on the lower-left, choose **Settings** and then on the right choose **Export Course Content**:

3. Click on the button, **Create Export**:

(Depending on the size of your course, it will take a few moments to process. When complete, you will see a confirmation message and the blue progress bar indicated accordingly):
