

Quest is a project of the Online Education Initiative that is comprised of a series of learning modules to measure the degree to which students possess the non-cognitive skills needed for success in an online course. Its goals are to identify at-risk students, increase retention, and direct students to resources and remediation. You may provide this link to your students so they can self-enroll into this separate course in *Canvas*. Each module includes quizzes so that students can submit their scores to you upon your direction. All directions for students are included in this course. To view it yourself, login to *Canvas* first and then [click here](https://ivc.instructure.com/courses/2882): (<https://ivc.instructure.com/courses/2882>)

1. This is the URL ([link to Quest in Canvas](https://ivc.instructure.com/enroll/3EDY88)) that students use to self-enroll into *Quest*. This link is included in the handout, "[Quest - Online Student Readiness Modules - Info For Students](#)" ← Provide students with the link to this handout.

<https://ivc.instructure.com/enroll/3EDY88>

2. Within your course, create an assignment to enable your students to submit (via file upload) their *Quest* scores:

- Website URL
- Media Recordings
- File Uploads

Upon your direction, you may identify (within your course or in your Syllabus) the specific module(s) that you want them to complete. To satisfy the requirements of the OEI, you must require, at a minimum, that students complete modules 0 – 4.

Quest Contents:

Modules 0 - 4 are designed primarily for students who are new to online learning, previously not done well in an online course, and/or are interested in learning how to be a better online student.

Modules 4-9 are designed primarily for new and experienced online learners looking for resources to enhance college success. Although not required, encourage your students to also view these modules and complete the quizzes to maximize their success in online learning.

For New Online Learners:

- [Module 0: Welcome and Orientation To Canvas](#)
- [Module 1: Identify your Strengths & Weaknesses](#)
- [Module 2: Introduction to Online Learning](#)
- [Module 3: Getting Tech Ready](#)
- [Module 4: Becoming an Effective Online Learner](#)

For New and Experienced Online Learners:

- [Module 4: Becoming an Effective Online Learner](#)
- [Module 5: Career Planning](#)
- [Module 6: Ed Planning](#)
- [Module 7: Instructional Support](#)
- [Module 8: Personal Support](#)
- [Module 9: Financial Planning](#)
- [Next Steps & Getting Started in Your Online Courses](#)

Quest consists of 10 modules useful to online learners that provide information such as what it's like to take an online course, getting tech ready, study skills for online courses, and an introduction to our new learning management system – *Canvas* (replacing *Blackboard* by Spring 2018)

Students new to taking an online course must complete modules 0 - 4. They must complete all required components within each module (reading pages, viewing videos, taking surveys, and completing quizzes (with a score of 80% or better)).

[Module 0: Welcome and Orientation To Canvas](#)
[Module 1: Identify your Strengths & Weaknesses](#)
[Module 2: Introduction to Online Learning](#)
[Module 3: Getting Tech Ready](#)
[Module 4: Becoming an Effective Online Learner](#)

[Module 4: Becoming an Effective Online Learner](#)
[Module 5: Career Planning](#)
[Module 6: Ed Planning](#)
[Module 7: Instructional Support](#)
[Module 8: Personal Support](#)
[Module 9: Financial Planning](#)
[Next Steps & Getting Started in Your Online Courses](#)

After completing all modules, students must then click on the **Grades** button on the course navigation menu on the left and screen capture all their results for submitting to you.
