

Sustainability and Resource Management Disclosure Statement

To the Student:

We are seeking permission to inform your worksite supervisor of the CWEE course requirements and to notify them if you fail to complete the enrollment process, drop the course or are disenrolled for any other reason.

Unpaid Interns/Students: Your enrollment in an unpaid internship through the Cooperative Work Experience program includes worker’s compensation insurance for work related accidents that may occur at an unpaid internship worksite. If you are disenrolled from the course for any reason, you are no longer insured by the District. We will notify your worksite supervisor if this occurs.

From the Students:

As a cooperative Work Experience Education student, I understand my Instructor will visit my place of employment and will set appointments and consult with my worksite supervisor regarding my work Experience course and learning objectives. I authorize Irvine Valley College to contact my worksite supervisor in order to inform them of CWEE course requirements and notify them if I fail to complete the enrollment process, drop the course or am administratively dropped from this course.

Semester (i.e. Fall 2015): _____
